"The CIW curriculum provided the structure, assessment tools and nationally recognized certifications to build our new IT program. This was a natural fit to fill a gap in our course offerings."

- Jeanne Steber, Careerline Tech Center

CIW Web Foundations Associate Series

The CIW Web Foundations Associate series of courses is the most popular vendor-neutral Web education program in the world. Individuals who have completed all three Web Foundations Associate courses — Internet Business Associate, Site Development Associate and Network Technology Associate — have mastered more than mere digital literacy skills: They have a unique understanding of Internet business, data networking and Web site design.

CIW Network Technology Associate

Understanding the fundamentals of networking, Internet protocols and network security is important for professionals who use computer networks. The Network Technology Associate course prepares students for job readiness in many business and technology-related careers. This certification proves an individual's mastery of the basics of computing and network administration. Topics include:

- Introduction to networking

- TCP/IP

- Internetworking

- Hardware and operating systems

- Network security

Related Jobs and Careers

Professionals in all industries can benefit from the CIW Network Technology Associate course and/or certification:

- IT and Help Desk Professionals
- Computer Technology Consultants
- Healthcare Professionals
- Legal Professionals
- Marketing Professionals
- Business Professionals

Typical Time to Teach

The CIW Network Technology Associate course can be taught in a number of environments and therefore the time to teach it can vary. Some typical time frames:

Secondary	one semester or less
Higher Education	four to six weeks
Training Providers	two to four days

Certification Exams

To earn the CIW Network Technology Associate certification, individuals must pass 1 exam:

CIW Network Technology Associate exam (1D0-51C)
25 questions | 30 minutes

CIW Program Overview

CIW (Certified Internet Web Professional) is the world's fastest growing vendor-neutral Internet skills training and certification program for professionals. More than a certification or a curriculum publisher, CIW is a Web technology standard adopted by academic institutions, governments and businesses worldwide. CIW includes applications and competencies, but our core curriculum focuses on the foundational standards that sustain the infrastructure of IT: Web design, e-commerce, security, networking and databases.
